

**CONNECTION, GROWTH,
EXPLORATION,
SUSTAINABILITY.**

Canopy Forest School

A local mobile Forest School that can bring the joys and benefits of outdoor learning into your School grounds . We can especially offer support to children that are experiencing anxiety, disruptive classroom behaviour, challenges at home or a lack of stability in their lives.

WE BELIEVE IN PROVIDING A CLASSROOM WITH NO WALLS. WHERE THE SKY IS THE LIMIT. NATURE IS THE TEACHER AND IMAGINATION, PLAY AND DISCOVERY THE CURRICULUM. SELF-ESTEEM, WELL-BEING, DEEP CONNECTIONS AND A SENSE OF WHOLENESS AND JOY ARE THE LEARNING OUTCOMES.

Canopy Forest School is a member of the Forest School Association. We are a team of qualified Level 3 Forest School Leaders who are also experienced teachers and approved Therapeutic Forest partitioners.

WE CAN BRING A FOREST SCHOOL TO YOU

WHO WE ARE?

Canopy Forest School is run by Emma Clode who is a local primary school teacher with over 20 years of teaching experience and is a qualified Level 3 Forest School leader. Emma has worked in a wide variety of schools in England, Switzerland and Norway and has a strong belief in the benefits and importance of taking teaching and learning outside. She has worked for many years as an outdoor learning coordinator within school and is skilled in developing links between outdoor learning and the curriculum. She has a Masters in supporting children with Social Emotional Needs and understands how to use nature to nurture students with a range of additional needs.

WHAT WE DO?

The learning "Experience" that we offer is based within a natural environment and is founded upon an internal process of holistic development. Each session allows its participants to have the time and space to make their own choices, take controlled risks and express themselves creatively in a play-based child-led way. Children have the opportunity to learn sustainable woodland conservation skills, natural woodland crafts and build self-esteem, confidence and resilience.

NURTURE SESSIONS

Canopy Forest School can bring a series of sessions for small groups of children (maximum of twelve) who need extra support with their confidence, resilience and self-esteem. Engaging with the natural environment helps to build the 'soft skills' that support social and emotional development

ALSO INCLUDED:

INDIVIDUAL CHILD REPORTS

We produce a report at the end of every term for each child which depicts the holistic learning that has taken place, skills and knowledge and personal development of each child.

ECOLOGICAL IMPACT REPORT

Before we start our Forest School sessions with you we will conduct a survey of your grounds and create an ecological report which is a formal system that identifies and creates an inventory of all the flora and fauna that exist in the area, the topography, substratum, site history/antiquity, site ownership, management and protection. This process evaluates the factors which will support and enhance our interactions with this space.

SUSTAINABLE SCHOOL GROUNDS PLAN

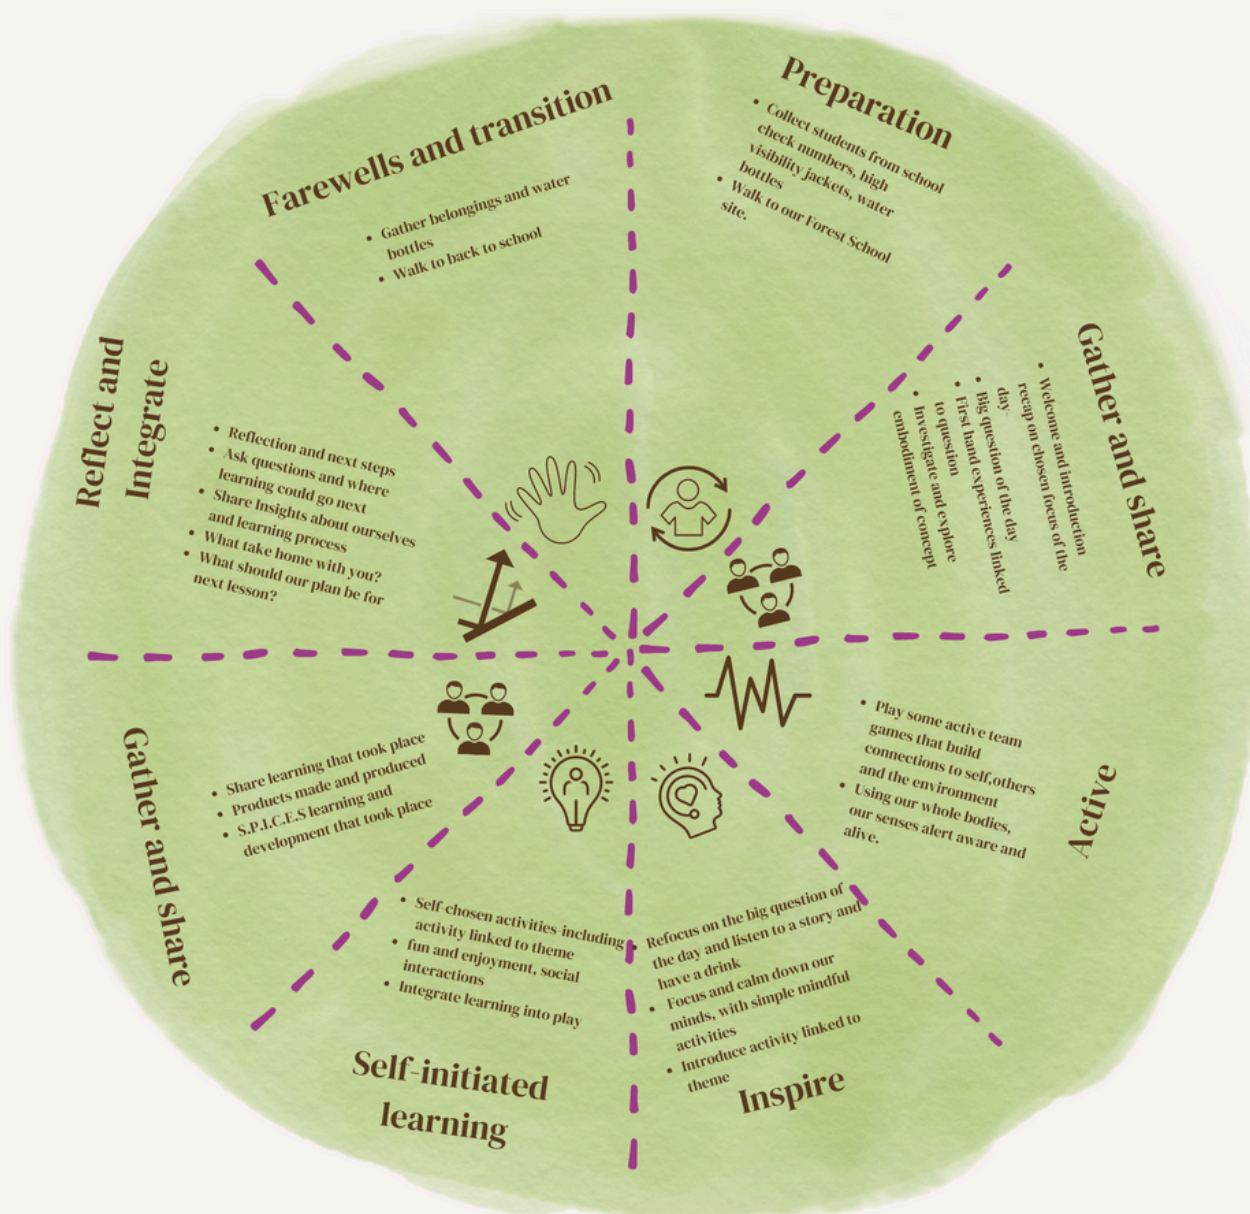

This plan outlines the proposed actions for looking after the woodland area that Canopy Forest School will occupy.

AN OUTLINE OF OUR CYCLE OF LEARNING

Canopy Forest School Cycle of learning

Our learning themes are built on our values: Connection, Growth,
Exploration, Sustainability
